Motions/topics/focus:

The meeting was held by the main editor of Debate News: Debate View on EU, Tijana Ljuboje, who at the very beginning greeted the participants and presented the agenda items:

- 1.The adoption of the work report
- 2.Preparing texts for the double issue of Debate News: Debate View on EU

1. The adoption of the work report

Debate News' main editor started with the analysis of the first agenda item, stating that a second issue of Debate News: Debate View on EU was published. She pointed out that the introductory word was inspired by Croatia's accession to the EU, and that it compared the situation in the educational system of BiH and Croatia. After that, she presented the section „Debate View on EU“, which in June brought new information about the project's activities and other novelties.

Associate for the section „Incoming letters“ pointed out that in the previous issue there was a text by a debater from Gymnasium Banja Luka, who analyzed the problem of corruption in BiH and compared it to the corruption in EU, which contributed by giving voice to CCD's debaters in discussion about the important issues.

Associate for the section „Students' corner pointed out that the June issue of Debate News had an interview with Andreja Đurdina, best internet debater in May, who comes from Zagreb. Anja Gengo stated that the interview is about the educational system in BiH and Croatia, the culture of communication in public and the influence of Croatia's accession to EU on BiH.

2. Preparing texts for the double issue of Debate News: Debate View on EU

Second agenda item started with a reminder that July 20th is the due date for delivering texts for the upcoming issue. Tijana Ljuboje asked if someone needed a few more days or any help in preparing the materials. The response was that the deadline will be met and that all the redaction members will independently complete their obligations.

Amela Ibrahimagić pointed out that she found materials about the founding and development of the EU and that she will send them to Anesa Vilić by July 9th 2013, in order to create a conceptual design for section „Meet the EU“. She also added that she found very useful materials for the next issue of Debate News, which are about globalization and she feels she can use to great advantages in section „Words of the Greats“.

The meeting's moderator asked if the participants have any ambiguities about their obligations. All participants stated that there are no ambiguities and that they are looking forward to their joint work in preparation of the double issue of Debate News: Debate View on EU.

Remarkable things (quotes, publicity of the event, impact on participants or public, reception, etc):

Lessons learned (if any): Croatian accession to EU will have long-term effects on BiH. The way in which BiH will carve its path to EU will largely depend on it will cope with its first neighbor entering the EU.
